

FAMILY VOICE

Family Engagement

Family Voice creates strong, long-term relationships between schools, families, and communities. By including family and community perspectives, we promote a sense of **belonging**, **shared responsibility**, and **student success**.

Why should schools participate?

- Work with school administrators, staff, and family members to build trust and communication with families and communities
- Understand diverse family and student needs and perspectives to improve student success
- Develop a shared sense of accountability with families
- Create a positive school culture centered around collaboration

How will Family Voice benefit your school?

- Stronger family partnerships lead to better student outcomes
- Focus on student needs by aligning school goals with various family perspectives
- Helps school teams develop solutions to challenges
- Support teacher efforts by providing insight to family dynamics and student behavior

Facilitated Focus Groups Can Include:

FAMILY VOICE

Hear from a variety of family members involved

STUDENT VOICE

Allow students to share in a safe space

COMMUNITY VOICE

Learn more from community stakeholders

FAMILY & COMMUNITY SURVEYS

Collect & analyze feedback from stakeholders
