OST EVALUATION
Program Assessment

Partner with Community & Family Services (CFS) to **amplify the impact** of your out-of-school time program! Through our comprehensive, multi-year evaluation process and cutting-edge data analysis, we help **enhance student outcomes** and **strengthen communities**. Together, we'll drive measurable, sustainable results every step of the way.

How Does Your Program Benefit?

☑ **Informed Insights:** Clear, actionable data—no more guesswork

☑ **Collaborative Growth:** Tools to help your team spot challenges and build solutions together.

☑ **Targeted Improvements:** Goals that translate into real changes boosting student success.

☑ **Sustainable Success:** Long-term impact for students, families, and communities.

Focus Area for Student Success

- **Health and Safety**
- **Relationships**
- **Engagement**
- **Communication**
- **Program Quality**

How the OST Evaluation process works:

Step 1
Data Gathering

We gather data through observations, surveys, and interviews. Engaging students, staff, administrators, and families creates a 360° view of your program, paving the way for meaningful insights and impactful improvements.

Step 2
Data Digs

We bring your team together to dive into your program data. Every voice matters as we uncover insights and begin identifying root causes of challenges. It's an engaging, collaborative experience that shapes your program's future!

Step 3
Root Cause Analysis

Let's roll up our sleeves and tackle the core issues! We analyze the factors behind the challenges identified in the data digs. By revealing these true sources, we set clear and achievable goals that address your program's most pressing needs.

Step 4
Goals & Action Steps

With a deep understanding of the root causes, we shift to action steps! Together, we develop clear, achievable goals, then create a step-by-step action plan to overcome challenges and boost your program's outcomes.
